Additional discussion about the event included: donations of left over foods worked well for a shelter that aids women who are rescued from slavery; portion sizes should be smaller next year; raffle challenge was mistakenly thought to include a winner – so next year be more clear if challenge again.

Celebration of Classroom/Grade Level parents. Huge thank you to all parents who stood in these positions that last all year long. Some parents shared their stories of activities they did through the year. Parents were invited to sign up for next year to follow their children to the next grade. Current parents were also asked to provide any notes of their activities through the year to the next year's parent for that grade.
